

# Cost of living in Toronto for low-income households\*

Yang Zhou

January 23, 2024

With recent inflation, low-income households are struggling to live in toronto. The data includes different scenarios and compare three situations, with subsidies, without subsidies + average rent, and without subsidies + market rent. We will investigate which factor is the major problem to create negative cashflow, and how to improve to obtain a positive cashflow for them.

## 1 Introduction
